

Seasonal Boost Cold Weather Bacteria

SWT16 • SWT32

Features

EasyPro's family of water treatment products is designed to work together to achieve the natural ecological balance your pond needs to maintain clean, clear water.

EasyPro Seasonal Boost contains a proven blend of beneficial pond bacteria, which "naturally" promote a healthy ecologically balanced ecosystem by reducing toxins, problem nutrients and murky water in water gardens and koi ponds.

- Works spring and fall for cold weather balance — may be used when water temperatures are below 55°F and as low as 38°F to naturally keep pond water clean and clear
- Promotes break down of leaves and organic debris
- Safe for use arounds pets and wildlife
- Maintains a healthy, balanced ecosystem and reduces pond maintenance

3 fl. oz. per
1,000 gallons

Directions for Use

For pond water below 55° F:

- Initial Dose: Apply 6 oz. per 1000 gallons of pond water
 - Maintenance: Apply 3 oz. per 1000 gallons of pond water weekly
- Seasonal Boost can be used in warmer water at a lower dosage rate.

For pond water above 55° F:

- Apply 2 oz. per 1000 gallons of pond water weekly

KEEP OUT OF REACH OF CHILDREN

Safe for fish & aquatic life

When to Use

- To allow for quicker spring startup and longer late season action
- Spring and fall, when water temperatures are as low as 38°F
