NEXUS AUTOMATIC SYSTEM

Continuing our long standing reputation for **innovation**, the **Nexus Automatic System** now enables Nexus owners to benefit from a **fully automated** cleaning cycle on their multi award winning Nexus filtration systems. Physically turning ball valves and manually switching pumps on and off will now be a thing of the past thanks to the Nexus Automatic System. All of the key processes that form the cleaning cycle are now controlled automatically with this **easy to install** kit.

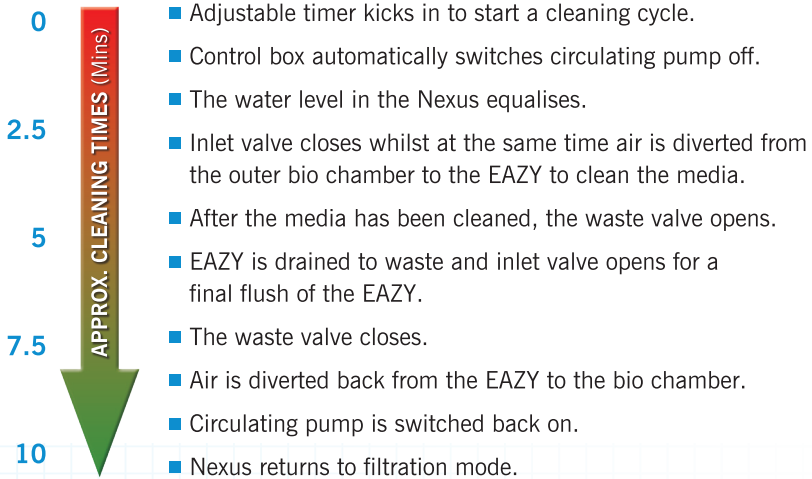

- **Hassle free** way to clean Nexus filtration systems
- **Automates** the cleaning process of the Nexus
- **Easily fits** onto Nexus filters (post 2006 models)
- **Electronic control box** automatically operates valves and pumps
- **Adjustable timer** controls the frequency of the automatic cleaning cycle to suit the user's needs
- **Easy to set up** for multiple cleaning cycles
- **Manual cleaning cycle** can be carried out if needed, at the **touch of a button**
- **GRAVITY** and **PUMP FED** versions available

AUTOMATIC CLEANING PROCESS

The Nexus Automatic System will control the cleaning cycle **fully automatically**. Cleaning is done on a timer, which is factory set to clean once every 3 days, however, this is easily adjustable to fit in with your pond requirements. The Nexus Automatic System will run a cleaning cycle which lasts approximately 10 minutes.
